OZO STAR® WASHER possesses an excellent cleaning power even at low temperatures thereby reducing the washing time and the energy consumption. Thanks to its special formula, it assists the bleaching action of ozone preserving fibers and colors. And it is active against greasy inorganic stains (eg. mineral ones). It leaves no residue solids in sewage, does not form deposits in the machine, it does not attack the metal parts and makes ironing easier.

OZO STAR ® WASHER has a universal application, from small to complex industrial facilities. With OZO STAR ® WASHER you can wash even at low temperature (total solubility), always achieving excellent cleaning results.

In the washing machine: dose from 15 to 25 g per Kg of goods (based on the degree of hardness of the water) during the phase of introduction of ozone.

OZO STAR® WASHER can be stored for 2 years.
