

SURFAN DUAL ECO

CONCENTRATED DRYCLEANING ACTIVATOR DESIGNED FOR THE USE IN PERC AND HYDROCARBON SOLVENTS

SURFAN DUAL ECO is the result of a synthesis of surfactant substances of new conception that optimize the yield of the product while minimizing polluting elements.

Aspect	Limpid liquid
Color	Clear
Smell	Characteristic
pH at 20°C	7
Density at 20°C	0.85 g/ml
Freezing temperature	Less than -7°C
Solubility in water	Clear and limpid solution
Solubility in perchloroethylene	Clear solution at any concentration

SURFAN DUAL ECO has:

- Exceptional cleansing action thanks to its formula that allows the product to penetrate into the fibers with a minimum dosage
- Antistatic action and that prevents re-deposition of dirt
- Maximum filterability and reduction of residue formation
- Sanitizing effect and that prevents the development of unpleasant odors
- Protective features that preserve the colors and give softness to the fiber
- Components that reduce ironing time

SURFAN DUAL ECO is suitable for use both in the dry-cleaning in perchlorethylene and in hydrocarbon solvents (KWL). Its low dosage minimizes waste also because the product is partially absorbed by the textile fiber where it acts at the same time preserving and emphasizing its natural features.

Into the machine:

- Dose 0.5-0.7 % of SURFAN DUAL ECO calculated on the machine capacity (that means 5-7 of gr SURFAN DUAL ECO per Kg of goods)

SURFAN DUAL ECO can be stored for 2 years.

The container should always be tightly closed after drawing.

Plastic container with 10 -25 Kg content.

712510 = 10 Kg 712525 = 25 Kg
