

## SURFLEAN REPAIR

Product to remove the dyes deposited in the wash and to prevent the possible migration of colors.

SURFLEAN REPAIR is compounded of highly selected raw-materials enriched with an element that, during the washing, protects the colors.

Aspect	Liquid
Color	Straw yellow
Smell	Characteristic
pH at 20°C	10
Density at 20°C	1.05 g/ml
Freezing temperature	Less than -5° C
Biodegradability	Greater than 90 %
Phosphorous (P) content	Totally free
Solubility in water	Excellent

SURFLEAN REPAIR is indicated to prevent the loss of color and / or to remedy a color re-deposition during the washing. Its particular composition makes it protective for the textile fibers, leaving original colors intact.

SURFLEAN REPAIR finds application in all the washing systems, can be employed in the big and middle industrial sector and it is also suitable for home use.

For the removal of dyes: dose in the pan 200 g of product each 5 L of warm water (50/60°C). Dry the garment in the dryer to avoid yellowing. If the result is not satisfactory, repeat the treatment adding a spoon of sodium hydroxide 30 vol.

For prevention: dose in the ratio of 20% on the amount of used detergent.

SURFLEAN REPAIR can be stored for 2 years.  
The container should always be tightly closed after drawing.

Plastic container of 1 – 5 -10 and 25 Kg.

850301 = 1 Kg

850305 = 5 Kg

850310 = 10 Kg

850325 = 25 Kg
